The simplified primary logo is a refined version of the main logo, designed for use in minimal layouts or smaller-scale applications where legibility and clarity are key. This version should be used thoughtfully to maintain brand consistency and ensure visual balance across all touchpoints.

PRIMARY LOGO VARIANT

The symbolic logo can be used individually for required purposes. The symbol carries the essence of the company making it identifiable in all situations

SYMBOLIC LOGO

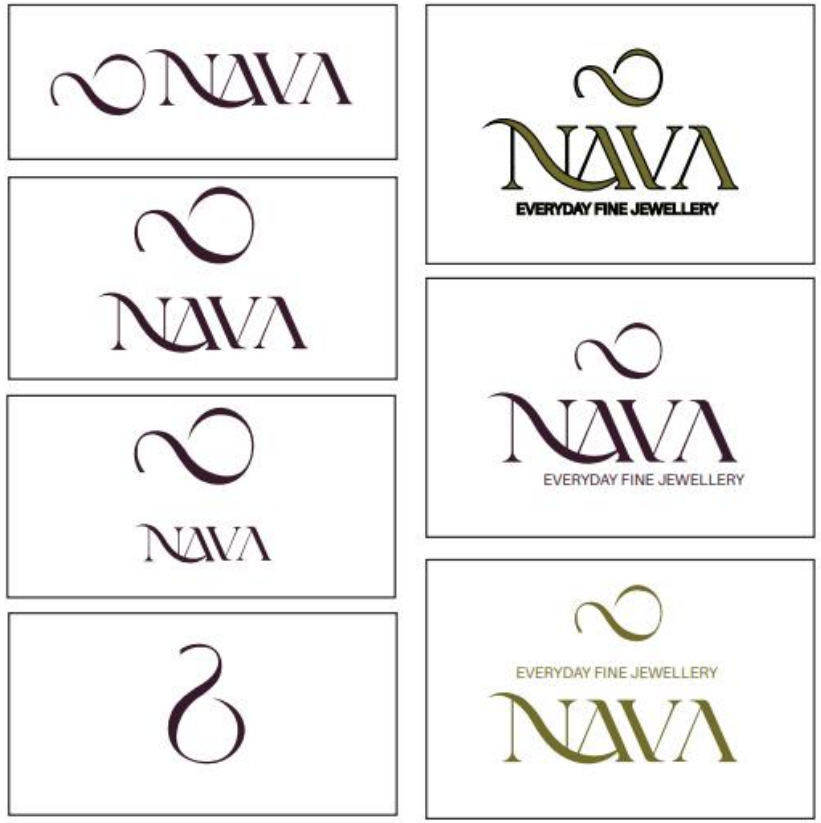
The secondary logo is an alternate version of the logo, designed for use in situations where the full logo may not be practical or visually balanced. This version may be used across smaller formats, subtle branding moments, or as design accents. It maintains the integrity of the brand identity while offering flexibility across diverse applications.

SECONDARY LOGO

The wordmark logo puts importance to the name which is very crucial for stengthening the name of the brand. Therefore the word alone is designed specially to give the importance to the name and hence can be used individually.

WORDMARK LOGO

UNALLOWED VERSIONS



To preserve the integrity and recognisability of the brand, the logo must always be used in its approved formats and proportions. Any alteration, distortion, or unapproved modification compromises the brand's visual identity and should be strictly avoided. Ensure that the logo is never stretched, rotated, recoloured, or placed on backgrounds that reduce its legibility or contrast. Consistent and correct usage safeguards the brand's cohesive appearance across all applications.

EXCEPTION

The use of gold plating on the entire surface of the logo is allowed, for example, in exclusive printed materials for various communication purposes. Embossing on paper or creating textured art with any variant of the logo is allowed.
